

RUSSIAN NEW UNIVERSITY (RosNOU)

Moscow, Russia

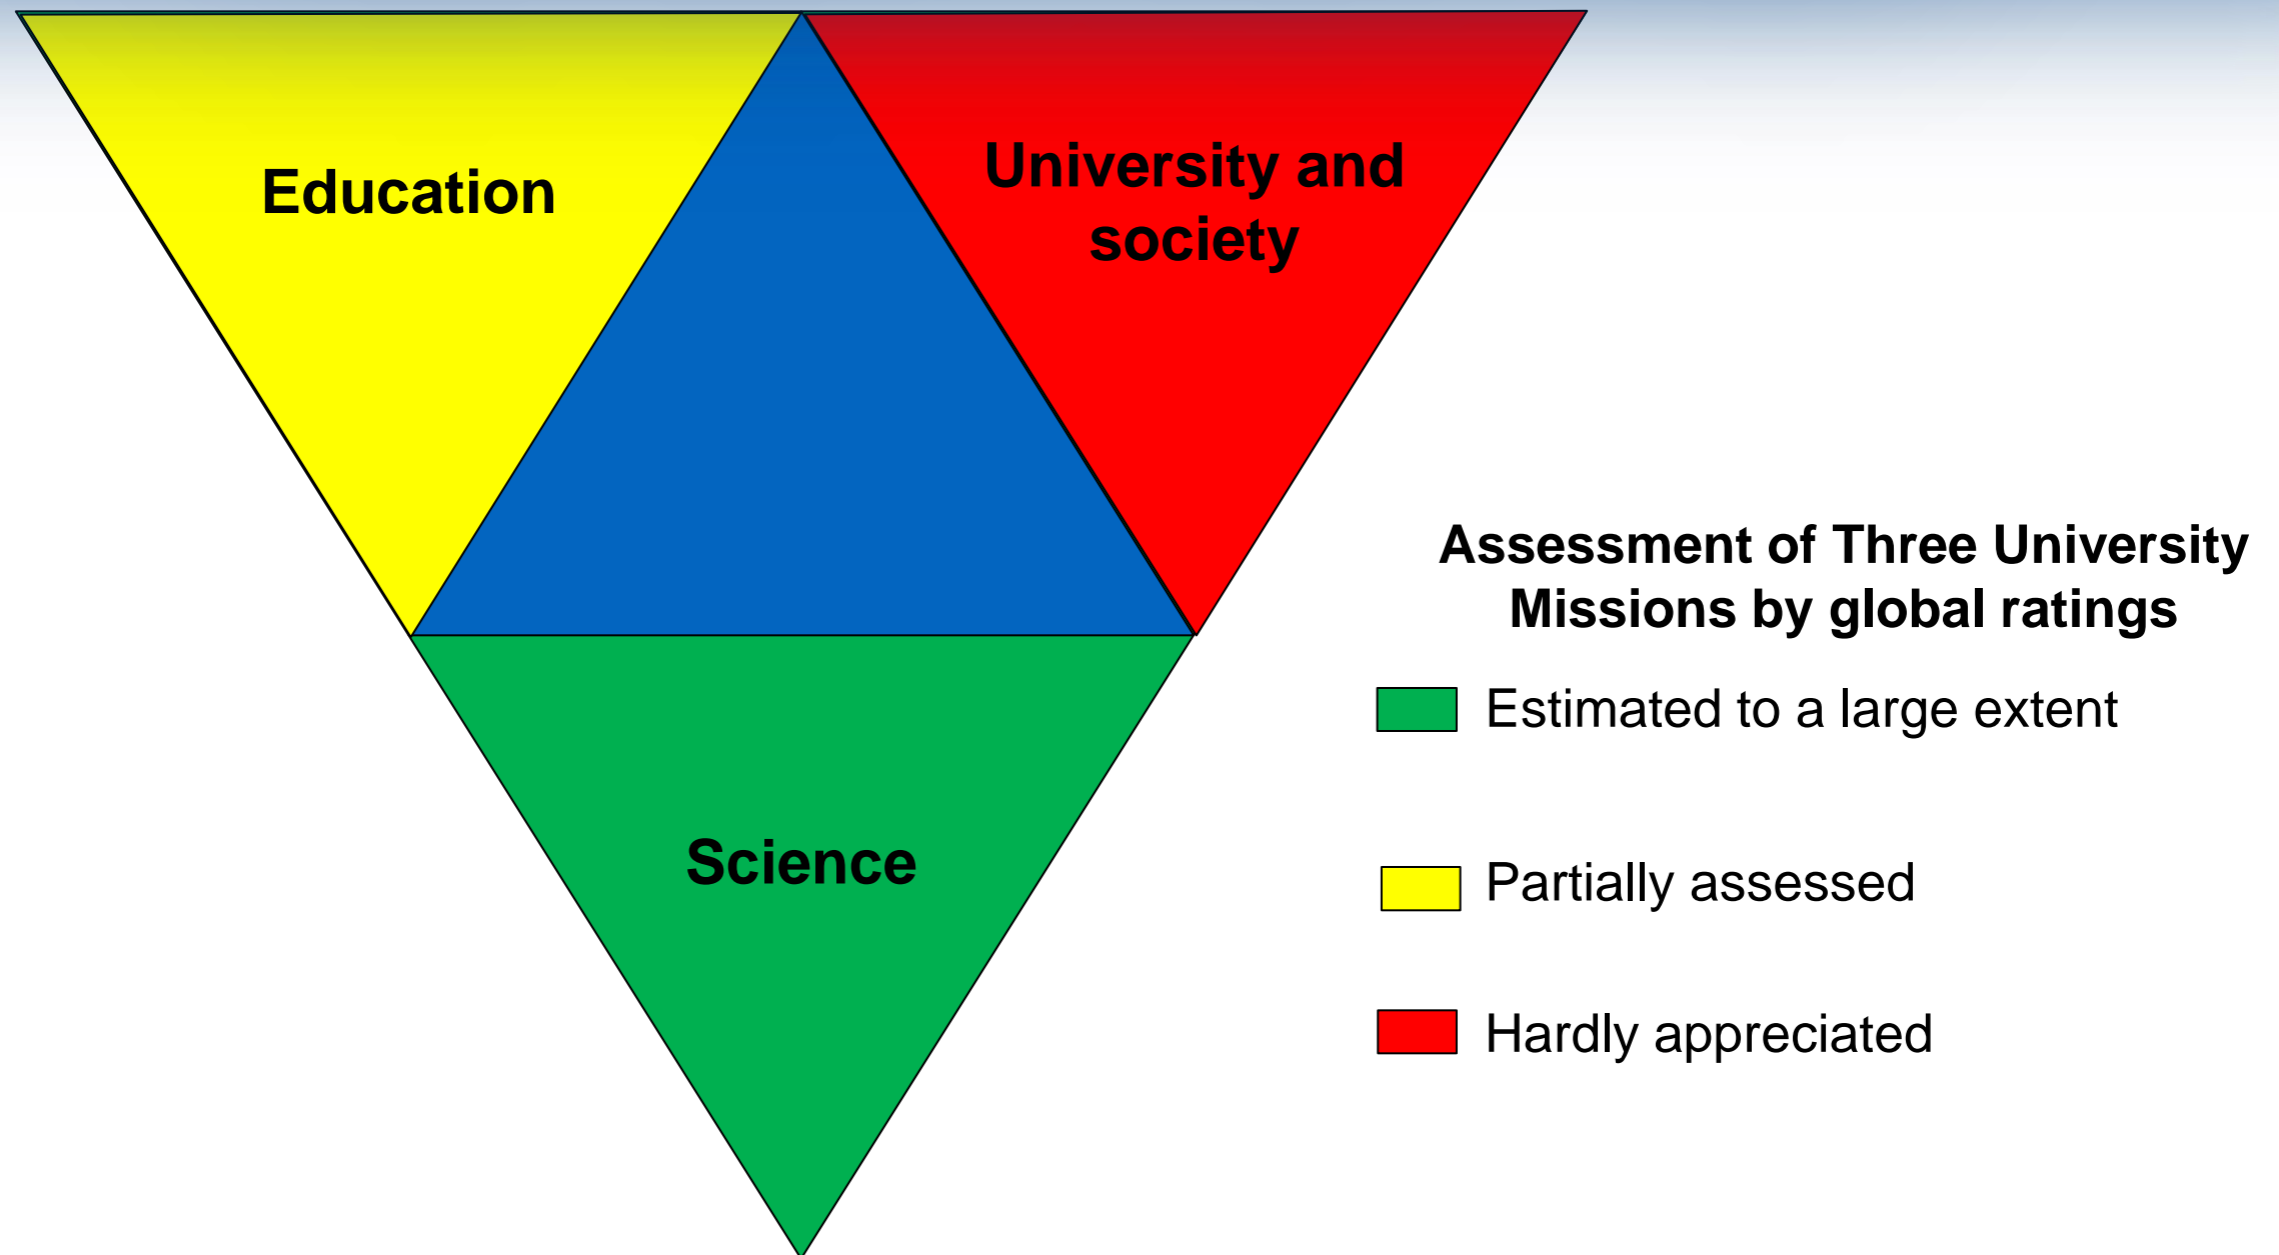

Established in 1991

THE SOCIAL ROLE OF UNIVERSITIES IN THE CURRENT WORLD

- Universities have become clusters of the post-industrial economy of the region, industry;
- The criteria for assessing of the effectiveness of their activities are not fully described in the rankings of “Big Three” (QS, THE, ARWU);
- International ranking “The Three University Missions” partly corrected the situation;
- Criteria for assessing the University as a cluster of post-industrial economy – IREG.

MOSCOW INTERNATIONAL RANKING – fundamentally new academic ranking

The Three University Missions rating set a new dimension: in addition to education and research, it assesses the impact on society. The creation of the new rating meets the expectations of many countries.

CRITERIA FOR ASSESSING THE UNIVERSITY AS A CLUSTER OF POST-INDUSTRIAL ECONOMY

University's objectives:

- The quality of education;
- The generating of the new knowledge.

Previously – education for the whole life

Now – education through the life

Future – education is the basis to change the profession

**UNIVERSITY – IS THE BASIS
OF THE HUMAN CAPITAL DEVELOPMENT**

THE QUALITY OF BASIC EDUCATION IS THE BASIS FOR MASTERING A NEW PROFESSION

- Bachelor's degree - continuing studies in Master's degree in other universities (countries)
- That is very important social problem
- How to consider in rankings?
- What specialists we need tomorrow?
- Time to change the direction of occupation is less than the time of studying in the University.

“THE THREE UNIVERSITY MISSIONS” RANKING

- Universities’ objective – is the direction of the society (civilization) development
- IREG is the headquarters of the rankings development trend

ASSESSMENT OF THE EFFECTIVENESS OF SCIENCE AND INNOVATIVE ACTIVITY

- How we can measure the effectiveness of science?
Innovations?
- Nobel laureates, the other rewards
- Expenditure on science
- The income from intellectual property
